

## ***North and South Groups Split***

It was agreed upon by the officers of the Millennium Diggers that having two chapters of the club was not working. There were major issues and both clubs were suffering, Therefore as of the meeting In Salem on November 11, 2003 the club has decided to go back to just the one group in Kiezer. The south club may be starting a new club; you can contact people down there regarding their status. Since the original group owns the name Millennium Diggers, the name will stay with the Kiezer group.

A financial report was done by an independent person with no interest in the moneys out come. It was figured that the Club in the South will be sent a check for \$479.37. This amount was sent to Clark Anderson former Treasurer of the south group. He also received a report was sent outlining how the money was divided.

The former club claims will be split with MD6 and Page Creek Staying South, Along with Sharkey's Den As it belongs to Mark C.

Any person or persons still interested in being in the Millennium Diggers Club are welcome.

Also the invitation to the Christmas party is still open.
